MindLeaders® Certification-Track Courses

Cisco Certifications

Cisco offers the Cisco Certified Design Associate (CCDA) designation to professionals passing exams covering a foundation or apprentice knowledge of network design for the Cisco Internetwork Infrastructure. Cisco also offers the Cisco Certified Network Associate (CCNA) designation to professionals passing exams covering the installation, configuration, and operation of simple-routed LAN, routed WAN and switched LAN networks. Additionally, Cisco offers the Cisco Certified Network Professional (CCNP) designation to professionals passing exams covering installation, configuration, and operation of LANs and WANs with networks of 100 or more nodes. MindLeaders offers courses to help you prepare for these certification exams. Complete certification requirements are located at the Cisco Web site at www.cisco.com.

CompTIA A+, Network+, Server +, and Security + Certification

CompTIA, the Computing Technology Industry Association, offers the A+ Certification exams, a testing program that certifies the competency of entry-level (six months experience) service technicians in the computer industry. The A+ Certification exams assess basic computer service and repair technology skills. MindLeaders, an authorized CompTIA curriculum provider, also offers courses to help you prepare for Network+ and Server+ certification exams. The Network+ certification verifies that the candidate knows about the OSI model, network components, and basic networking hardware peripherals

and protocols. The Server+ certification credential validates advanced-level technical competency of server issues and technology, including installation, configuration, upgrading, maintenance, troubleshooting and disaster recovery. The Security+ series helps prepare the learner for the Security+ exam by teaching general security concepts, communication security, infrastructure security, some basics of cryptography, and operational and organizational security. It also provides a practice exam that includes questions in a format similar to the certification exam. Complete certification requirements for A+, Network+, Server+, and Security + are located at the CompTIA Web site at www.comptia.com.

European Computer Driving Licence (ECDL) Certification International Computer Driving Licence (ICDL) Certification¹

The ECDL Foundation awards ECDL or ICDL certification to those who have passed one theoretical test on basic Information Technology concepts and six practice-based tests using a personal computer and common computer applications. To prepare for these tests,

an individual may take courses from MindLeaders, a certified ECDL and ICDL vendor. Being a certified ECDL/ICDL vendor means that MindLeaders courseware has been approved by the ECDL foundation and meets the criteria of version 3.0 and version 4.0 of the ECDL syllabus. Full certification requirements are located at the ECDL Foundation Web site at www.ecdl.com
